West Itchenor
Recent works completed

May 2017

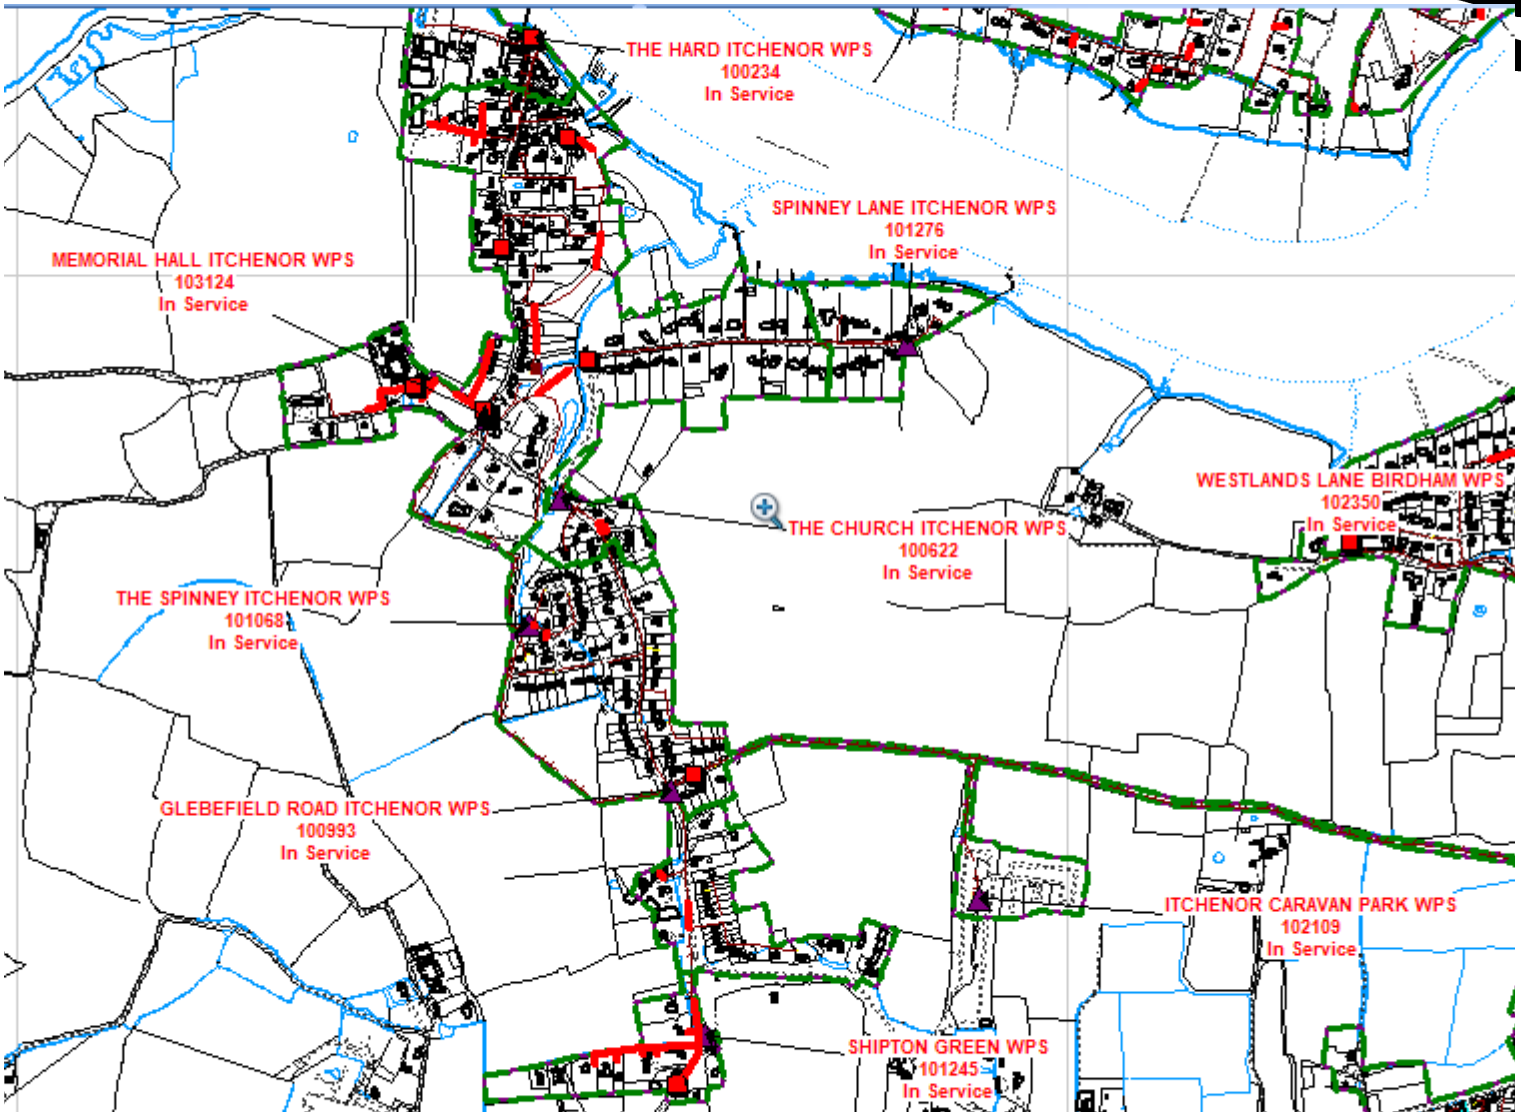

Southern Water

Sewer Rehabilitation Work

- Foul sewer was surveyed in 2016
- CCTV survey identified areas where infiltration could be entering the foul sewer system
- Work was prioritised and scheduled to be delivered in financial year 2016/17 – year 2 AMP6
- Contractor was on site in February 2017 and most of the works completed in March 2017.

Sewer Rehabilitation Work

Southern Water

Shipton Green Wastewater Pumping Station Improvement works

- Pumping station was surveyed in January 2017
- Some performance issue was observed with the pumps and incoming sewers
- Improvement works completed in 2017

Southern Water

Outcome following recent works

- No issues reported after works completed especially during recent rainfall events.
- Current observations suggest improvement in the catchment – further monitoring will continue to understand performance of the catchment.
