Build a Better A27: Defining our key requirements

Overview

Dear all,

Over the past few months we have worked together with Chichester area communities and businesses to produce a set of themes and key requirements of an improved A27.

Based on your input and the review on the 24th of July we have collated a further draft for you to comment on. This review should take approximately 10 minutes to complete.

If you are participating as a representative of your local community, government or business group we will take your input as representing your organisation.

We will use this feedback to compile a final set of agreed requirements across the "Build a Better A27" Group.

This survey is open until 15th September and it is important that we get views from everyone involved in the process and group so far, as this will go into the final requirements.

We will circulate the final key requirements and comments after the survey closes.

Should you have any questions please send them to BuildaBetterA27@westsussex.gov.uk.

Best regards,

Ash

Introduction

1 Please provide your name.

Name (Required)

2 Please provide your email address.

If you enter your email address then you will automatically receive an acknowledgement email when you submit your response.

Email (Required)

3 Which community group, organisation or business do you represent?

Organisation, community group or business (Required)

Key Themes

The following themes were agreed in the community and business workshops. Please can you rank them 1-7 in order of importance (1 is most important, 7 is least important).

In the following sections, we will ask you to indicate the importance of the key requirements in each section.

The key requirements identified are a product of the community and business workshops.
